Registration Now Open For Motorcycle Safety Classes

The Nevada Rider Motorcycle Safety Program has released the 2013 training schedule for motorcycle safety classes in Elko, Winnemucca, Hawthorne, and Carson City. Please visit www.nevadarider.com for information on a class in your area.

The Basic RiderCourse is a 2.5-day class that includes classroom and on-cycle instruction. It is designed for beginners or for experienced riders who would like a refresher course on what it takes to ride safely. Classes cost \$100 and include six hours of classroom instruction, approximately 10 hours of riding time on our motorcycles, a written test and riding evaluation. Upon successful completion of this class, students can visit their local DMV office to request the motorcycle Class "M" designation be added to their driver's license.

For more experienced riders in need of an "M" license, Nevada Rider offers the Experienced RiderCourse. This one-day class is taken on your own motorcycle and costs \$60. Upon successful completion of the written test and riding evaluation, students can receive their "M" licenses from the DMV. Experienced RiderCourses are offered in Elko and Carson City.

Classes fill quickly, so call early to register (800.889.8779 or 775.684.7480).
